

## **Motorised Golf Carts (including motor bikes)**

Users are required to obey cart signage directions, and not drive or park these vehicles within 5 meters of any green, bunker or surrounds.

No motorised vehicle is to be driven between the greens and bunkers.

Please stay on paths where provided.

Be aware of the noise they create and as such they should not drive up to or past players during the course of their stroke making.

Players must protect tee blocks by parking off the tee blocks.

Carts are NOT permitted on fairways during winter or on fairways under maintenance.
