

## OTHER EXTREME WEATHER CONDITIONS

(Electrical Storms, Flooding Rain or Gale Force Winds)

In the case of an electrical storm players will be called from the course when the siren sounds. The Golf Pro & Club Captains receive an alert when a lightning strike has been detected within 10km of the Golf Course. Players must:

- mark your ball.
- return to the clubhouse immediately. **(Failure to cease play will have players disqualified from Competition in play)**
- wait in the clubhouse until the storm has passed and play resumes indicated by three blasts of the siren.
- Play will only resume after a minimum of 30 minutes since the last lightning alert, and if considered safe to do so.

**OR** if you feel your safety is compromised prior to any alert, follow the above process.

If the greens are unplayable due to flooding rain:

- mark your ball (use a tee if a marker is unsuitable) and wait or come into the clubhouse until the weather clears and greens are playable.

If conditions do not improve with time left to complete the round, the match committee has the right to cancel the round and replay it at a later date.
