

Sand Buckets and Divots

All players, regardless of driving, pulling or carrying golf clubs, must carry and use a sand bucket. At all times of the year, divot holes must be filled with sand. This includes divots taken in the rough. Do not replace the divot.

Pitch Marks

Pitch marks on greens must be repaired. Not only your own but any others you see.

Bunkers

Enter bunkers from the lowest point and exit via the same route. Rake and smooth all footprints and divots.

Replace rakes in the holders or where no holder, position in the lowest part of the bunker with the handle facing back down the fairway.

Leave the bunker how you would like to find it.
